Eight Members of the Murderous Society of Filipinos Tried and Sentenced to Be Hanged.

WASHINGTON, June 17.—Archbishop Chappelle, of New York, has been recommended to the Vatican and to the Pope in person for elevation to the rank of cardinal because of his services as Papal legate for the Philippines and West Indies. Archbishop Chappelle is of French descent, and it is believed his elevation would be looked on with favor by the French authorities. In some ecclesiastical circles it has been felt that the church authority over the Philippines, Cuba and Porto Rico should come under the American hierarchy rather than under a Papal legate, as the American church is better able to co-operate with the United States government in directing insular affairs. It is understood this question also has been brought to the attention of the Vatican during the visit of Cardinal Gibbons and Archbishop Chappelle to Rome. During one of the audiences, when the elevation of Archbishop Chappelle was urged upon the Pope, the latter expressed his high regard for the work of the archbishop.

It is the intention to bring the matter of title of the friars in the Philippines to a determination by a trial in the Supreme Court of the Philippines. Under present conditions there can be no appeal to the Supreme Court of the United States, as such an appeal could be allowed only provided for in legislation at the next Congress.

CLEARING HOUSE NEEDED.

Troubles of the Paymasters' Department in the Philippines.

WASHINGTON, June 17.—The War Department is endeavoring to reach an arrangement with the Treasury Department which will remove as far as possible the difficulties now encountered by army officers and civilian employees in the Philippines in obtaining money on United States drafts and checks. General Lutes, who is in charge of the Philippine Department, has just returned from Manila after consulting the Secretary of the Treasury, who will go to New York to see Assistant Treasurer Jordan about the matter. Under present conditions the checks drawn by army officers or civilian officers in the Philippines are not cashed in New York unless the indorser is known at the treasury. It is proposed to organize a clearing house in Manila by which all checks and drafts may be indorsed by the civil treasury at Manila and his signature considered as a check on the treasury. The clearing house is to be organized in Manila, and the paymaster in Manila keeps on hand from a million to a million and a half in currency, with a guard of soldiers to protect the money. SOCIETY OF MURDEROUS FILIPINOS.

WASHINGTON, June 17.—A Philippine mail brings to the War Department the records in eleven cases wherein Filipinos were tried by military commissions on charges including murder, rape, kidnapping, assault and battery, burglary and violation of the rules of war. An especially notable case arose out of the operations of a famous oath-bound band of Filipinos, called the Society of the Bloodless, which was organized by a Filipino, next to the triumvirate of chiefs, are a chief executioner and a chief messenger. The society is composed of men who participate in the self-appointed work of the band. The leaders select their victim, capture and carry him away in the night to a secret rendezvous on a sandy beach covered with very tall grass, where the diggers already have prepared the grave. Here, in the presence of the assembled band, helpless man and women from time to time have been stabbed to death and tossed into the grave. The members of the band then disperse, and trust to the rise and fall of the nearby waters to hide the evidence of their ghastly work. Ten members of the band, including two of the chiefs, were tried before a military commission and eight of them were sentenced to be hanged.

HE TOLD A QUEER STORY

BEDROOM STEWARD OF THE KAISER WILHELM DER GROSSE.

Who "Discovered" Stolen Gold, Got Reward, Was Hypnotized and Robbed and Later Arrested.

NEW YORK, June 17.—Since the arrival here a few days ago of Arthur Carl, chief of police of Bremen, Germany, on the steamship Lahn, some inside information concerning the mysterious gold robbery which occurred last April aboard the Kaiser Wilhelm der Grosse has leaked out, but no arrest has been made in connection with the crime, the prisoner being Theodore Mager, the bedroom steward. He is believed to have been only a tool of shrewd men who planned to reap a large quantity of yellow bullion by the plundering of the treasure vault aboard the liner. Mager, who got the reward for finding the stolen gold, is locked up in Germany.

The North German Lloyd officials, when the robbery was reported, offered a reward of \$2,000 for the missing gold bars, and three days after the vessel reached Bremen Mager claimed that while cleaning the workroom in one of the second-cabin passages he found bullion hidden on a protruding corner back of some steamstoves. The reward was paid to Mager. According to the story now told, Mager left the ship, saying that he was going to have a good time with his sweetheart, who lives in Bremen. He did not return to the Kaiser Wilhelm der Grosse before she started back for New York, but a week or so afterward he put in an appearance at the Bremen police station. He explained that while on the way to see his sweetheart he fell in with a man who had been a second-cabin passenger on the Kaiser Wilhelm der Grosse, and that the latter had hypnotized and robbed him of the reward money. He was arrested on suspicion. Before he was arrested the French detective, who was in the craft looking for the stolen gold, was told that the man who was running about like sheep without a shepherd, was the man who had stolen the gold. Rhodes was glad of the opportunity of saying a few words which he hoped would be to their good.

Germans and Austrians Unite in Playing the "Marcellite."

BERLIN, June 17.—A remarkable ceremony occurred at Hachenburg, Prussia, yesterday, when the military attaches to the French and Austrian embassies in Berlin, together with fifty-five German veteran associations, jointly celebrated the dedication of two monuments, one erected by Austria, in honor of those Austrians who fell in 1870, during the war with France, and the other to the French general, Marceau, who was mortally wounded on a reconnaissance at Altenkirchen, in Rhenish Prussia, Sept. 20, 1870, and died three days after. At the dedication of these monuments the Austrian and German military bands played the "Marseillaise" and the Prussian hymn. A French attaché proposed three cheers for Emperor William, and an Austrian attaché expressed his confidence in the durability of the Dreikaiserbund. The ceremony was witnessed by large numbers of German army and navy officers on the active list and high civil and military officials from a number of districts.
